

**Declaration of Consent and privacy policy**  
**Covid-19 saliva testing within the project “Pool tests for all”**

I hereby consent to undergoing testing for the COVID-19 virus under the testing program offered by Hirslanden AG (“HIRSLANDEN”).

I have read and understood the information and conditions outlined below and accept them.

1. Testing for covid-19 virus is voluntary for asymptomatic persons and persons without close contact with positive covid-19 cases.
2. In the event of a positive result, you are advised to have an individual retest (PCR or rapid antigen test) carried out immediately at a testing site and to follow increased protective measures until the result is available (wear a mask, keep your distance, avoid contact with people).
3. Only persons without symptoms of COVID-19 are tested. If you have any symptoms, especially fever, cough, taste or smell disorders, please adhere to the regulations of the Federal Office of Public Health (FOPH) and contact a dedicated COVID-19 test center directly for a test.
4. Testing entails the use of pooled PCR saliva tests.
5. Sampling is carried out via a non-invasive saliva test. You will submit your saliva sample by rinsing your mouth with a saline solution for 60 seconds and transferring the liquid into the sample tube provided. Testing is carried out while following all necessary precautions in accordance with the manufacturer's instructions and the corresponding instructions of trained staff.
6. The PCR saliva test does not serve to exclude the presence of a COVID-19 infection with 100% certainty.
7. A positive test result for the presence of COVID-19 viruses can entail official quarantine measures.
8. The analysis methods may cause incorrect test results. No claims whatsoever against HIRSLANDEN can be derived therefrom.
9. The data required from you will be collected, stored, processed and used by HIRSLANDEN and all third parties involved in the execution of the contract under consideration of the data protection regulations solely for the purpose of carrying out the test.
10. The test result will be provided to you via e-mail and SMS.
11. In case of a negative result, your Covid certificate will be provided to you via e-mail.
12. HIRSLANDEN undertakes to comply with the data protection regulations of the cantons and the Confederation and will ensure that its staff and all the third parties it involves in the execution of the contract also comply with the data protection regulations of the cantons and the Confederation.

13. Further information about data processing in conjunction with your test can be found in the [Privacy Policy of HIRSLANDEN](#).
14. After registering for a test, you will receive written confirmation and a receipt via e-mail.
15. Registration for a test is valid for five days after completion, after which it is cancelled and any amount paid is automatically refunded.
16. If there exists liability on the part of HIRSLANDEN, HIRSLANDEN shall only be liable in the case of unlawful intent or gross negligence. Further liability on the part of HIRSLANDEN, on whatever legal grounds, shall be excluded –where permitted by law – in particular liability for (i) slight negligence, (ii) indirect incidental damage and consequential damage, and (iii) actions and omissions of any auxiliary agents. HIRSLANDEN shall also not be liable for any disruptions of performance which occur for technical reasons (e.g. defective hardware/software, maintenance work) or for reasons for which HIRSLANDEN is not responsible (e.g. force majeure, influence of a third party).
17. You can revoke this declaration of consent for the future by cancelling your registration for the test. The legality of the processing of your personal data effected by giving your consent until revocation shall not be affected by said revocation.
